Body:

Hey, Sebastian here,

As you might already know 2021 is coming to an end and with 2022 comes new goals, hopes, and aspirations.

If you are like most entrepreneurs you've probably started preparing for the new year. But you see most entrepreneurs fall back into their previous year's pattern and it stops them from achieving their new goals.

If you've ever encountered this problem I'd like to help.

On the 29th of December, we will be going live for the [7-figure Year Virtual Event](#)

Last year I decided to share my process with entrepreneurs like you and it was a massive success.

Particularly it was very satisfying getting feedback from our attendees over the year on how they crushed their goals.

This year I'd like for you to be a part of the success stories.

During the event you'll :

- Learn how to lead your business to greater success in the New Year
- Gain clarity on how to set the **RIGHT Goals** to meet your business and private needs
- Learn how to 10x the likelihood to achieve your goals
- Get to meet accountability partners to keep you on track throughout the New Year

And so much more.
